Daily Report

Task 1:

Designed Prompt for generating Experience Reference check questions for the candidate

Task 2:

 Embedded the new prompt into the existing code using Lang chain Framework

Task3:

Did test run for the web app by uploading different resumes from internet and different job descriptions from LinkedIn.

Task4:

The App works in the following work flow

Step1 - We upload Resume of the candidate applying for the job

Step2 – We upload the job description

Step3 – Based on the different prompt templates question are generated.
